

Enroll for a no-cost property survey

Funds still available for Lahaina, Kula homeowners to get a survey and move toward rebuilding

Lahaina and Kula homeowners: we're making progress! Since the Maui Strong Fund of the Hawai'i Community Foundation launched the No-Cost Property Survey program last year, 90 surveys have already been completed, with more scheduled to wrap up by September 2025.

A completed property survey is required to begin the rebuilding process--*but this is one expense that homeowners do not need to shoulder. Funds for surveys are still available for homes in Lahaina and Kula that were owner-occupied before the August 8, 2023, wildfires.* This no-cost program is the first of its kind in the nation and may serve as a model for other disaster-affected communities.
